STATE TAX COMMISSION

In the Matter of the Petitions	:	
	:	
of	:	
	:	
G. H. WALKER & CO., and	:	DECISION
Related Cases	:	
	:	
for Redetermination of a Deficiency or	:	
for Refund of Personal Income and	:	
Unincorporated Business Taxes under	:	
Articles 16, 16-A, 22 and 23 of the Tax	:	
Law for the Years 1956 through 1970.	:	

Petitioner, G. H. Walker & Co., timely filed an application for revision or refund of unincorporated business tax under Article 16-A of the Tax Law for the years 1956, 1957, 1958 and 1959.

Petitioner filed two petitions for redetermination of a deficiency or for refund of unincorporated business tax, one for 1960 and 1961 and the other for 1962 through 1970 (File Nos. 00111 and 01569).

A formal hearing was held before Nigel G. Wright, Hearing Officer, at the offices of the State Tax Commission, Two World Trade Center, New York, New York, on April 29, 1976 and was continued July 14 and 15 of that year. Petitioner appeared by White and Case (Gwynne H. Wales, Diana Pinover, Emanuel Demos and John J. McAvoy, Esqs., of counsel). The Income Tax Bureau appeared by Peter Crotty, Esq. (Solomon Sies, Esq., of counsel).

A decision affirming the deficiencies was issued by the State Tax Commission on February 8, 1977, but was annulled by the Supreme Court, Appellate Division, Third Department, which remitted the matter to the State Tax Commission for further proceedings not inconsistent with its opinion.

The years 1956 through 1959 were not part of said court proceedings since the State Tax Commission had stipulated that the resolution of the issues

raised with respect to such earlier years will be the same as that with respect to years 1960 through 1970 but only to the extent that the resolution results in the cancellation of unincorporated business tax.

ISSUES

I. Whether petitioner, an underwriter and dealer in securities, properly allocated primary or underwriting profits, where petitioner, as a member of an underwriting syndicate managed by a New York based underwriter, entered into a commitment for the purchase of securities of an issuing corporation or bonds of a municipality.

II. Whether, in the alternative, petitioner, G. H. Walker & Co., can allocate the excess of its unincorporated business gross income over its unincorporated business deductions based on the three factor formula.

III. Whether petitioner properly allocated commissions earned from the execution of stock purchase or sale orders on the New York and American Stock Exchanges, where such orders originated in petitioner's offices outside New York.

IV. Whether petitioner properly allocated profit-sharing contributions.

V. Whether petitioner properly allocated interest income and interest deductions.

VI. Whether petitioner should have allocated to the offices outside New York a bookkeeping charge for services performed by the New York office for petitioner's out-of-state offices, at the rate of five percent of the total commissions on orders originating outside New York.

VII. Whether the surcharge on commissions received by petitioner in 1970 constituted additional commission income allocable to New York.

VIII. Whether net operating losses sustained in 1969 and 1970 could be claimed by petitioner for 1966 and 1967 respectively.

IX. Whether sufficient grounds exist for granting petitioner's motion for summary judgment, based on alleged protracted delay.

FINDINGS OF FACT

1. Petitioner, G. H. Walker & Co., timely filed New York State partnership returns and unincorporated business tax returns for the years 1956 through 1970.

2. On May 24, 1966, the Income Tax Bureau issued notices of additional assessment to the partnership for unincorporated business taxes for 1956 through 1959 in the following amounts:

1956	\$12,586.72
1957	14,066.79
1958	13,148.93
1959	15,090.63

On October 22, 1965, the Income Tax Bureau issued a Statement of Audit Changes to the partnership for unincorporated business taxes for 1960 and 1961 in the amounts of \$15,016.10 and \$15,336.22 respectively, plus interest, and, July 11, 1966, timely issued a Notice of Deficiency therefor. On March 1, 1974, the Income Tax Bureau issued a Statement of Audit Changes to the partnership for unincorporated business income taxes for 1962 through 1970 in the following amounts:

1962	\$20,667.24 plus interest
1963	21,027.32 plus interest
1964	24,599.76 plus interest
1965	27,361.40 plus interest
1966	31,589.84 plus interest
1967	34,536.52 plus interest
1968	51,883.53 plus interest
1969	17,250.27 plus interest
1970	14,265.14 plus interest

On April 12, 1974, a Notice of Deficiency was timely issued.

3. On June 23, 1966, G. H. Walker & Co. timely filed an Application for Revision or Refund of Unincorporated Business Taxes on Form IT-113 for 1956 through 1959.

On August 1, 1966, petitioner timely filed a petition for redetermination of a deficiency or for refund for 1960 and 1961, and June 26, 1974 filed a similar petition with respect to the years 1962 through 1970. In addition, on January 10, 1972, petitioner filed claims for credit or refund for 1966 and 1967. A Notice of Disallowance of these two claims was sent to petitioner April 13, 1973.

4. Petitioner was a partnership engaged in business as investment bankers and stockbrokers in New York, Missouri, Rhode Island, Connecticut, Illinois and Pennsylvania during the taxable period 1956 through 1970. During those years, the partnership was organized into three regional centers, with respective main offices in New York, New York, St. Louis, Missouri and Providence, Rhode Island. The New York group included an office in New York City, as well as offices in White Plains, New York, Hartford and Bridgeport, Connecticut and Philadelphia, Pennsylvania. The St. Louis group included the main office in St. Louis and an office in Kansas City, Missouri. The Providence group included offices in Providence and Pawtucket, Rhode Island. During the period from 1956 through 1970, the partnership was a member of the New York Stock Exchange, held a seat on such exchange and had a partner on the floor of the exchange. The partnership was also an associate member of the American Stock Exchange.

5. A partnership agreement of December 15, 1962, representative of the partnership agreements in effect 1960 through 1970, was signed by 27 general partners. A committee of seven managing partners, each of whom managed regional group offices, determined the additional salary payments for partners, based on the profit performance of the regional group of offices where the partners were employed.

6. The capital of the partnership was allocated to the three regional offices as follows:

	<u>1960-1969</u>	<u>1970</u>
New York	50%	65%
St. Louis	25%	25%
Providence	25%	10%

The allocation stated above for 1960 through 1969 was contained in the 1962 partnership agreement.

7. As a matter of operating practice, pursuant to the December 15, 1962 partnership agreement, the underwriting participations and selling group allotments were to be divided between the regional offices of the firm as follows (although the testimony of Frederick Wonham, the New York syndicate partner, indicates that these percentages were not constant throughout the period):

	<u>Bonds and Preferred Stocks</u>	<u>Common Stocks</u>
New York	50%	45%
St. Louis	30%	37%
Providence	20%	18%

Variation of the percentages could be made by mutual agreement between offices.

8. The books of account of petitioner, G. H. Walker & Co., were maintained on a basis which accounted for the activities of each of the three regional groups of offices separately, so that the profit or loss of each of these regional centers could be separately determined. In addition, separate accounts were maintained for each branch office within each of the three regional groups, showing the amount of income and deductions attributable to each.

9. During the years in issue, petitioner was a member of underwriting syndicates. The underwriting agreements entered into by such members of the syndicate were retained by the underwriting managers. Petitioner's participation in such an underwriting syndicate would usually begin with a telephone call from the managing underwriter to petitioner's New York syndicate partner, inviting such participation. The managing partners in New York, St. Louis and Providence would then be contacted by the New York syndicate manager to discuss

the particular underwriting. A refusal by a managing partner would normally result in petitioner declining the invitation to participate in the underwriting.

10. The underwriting agreements were entered into for the purpose of facilitating the sale to the public of securities issued by an issuing corporation, and were subject to the regulations of the Securities and Exchange Commission. The difference between the price at which the shares are purchased from the issuing corporations, and the price at which they are to be offered to the public is called the "spread". Of the spread, a certain portion is to be returned to the managing underwriter or underwriters as their underwriting fee. Another portion is retained by the underwriter as his underwriting profit, as compensation for being part of the underwriting syndicate. The balance of the spread, namely the "secondary profits", is retained by the sellers of the stock to the public whether the sellers of the stock are the underwriters selling through their branch offices, or a selling group of which the underwriter may or may not be a part, or any dealers invited by the managing underwriter to participate.

The underwriting agreement provides for a commitment by each underwriter to purchase a certain amount of the issued securities. The underwriting agreement may provide that a certain portion of the securities to which the underwriting member has committed himself may be reserved by the management to be sold to members of a selling group who are not parties to the underwriting agreement and who would be entitled only to secondary profits. Members of the selling group may either be invited by the underwriting manager or they may request the manager to allow their participation. Each such member may enter into a legal commitment to purchase issued shares. In certain instances, a member of the underwriting group may also request to become a member of the

selling group which usually occurs when such member is able to sell more than the shares allotted to it. By so doing, the underwriter gains the advantage of being both an underwriter, receiving underwriting profits as a member of the underwriting group, and a member of the selling group selling directly to the public, thereby also separately receiving secondary profits.

11. The notices of deficiency herein add the "primary" or underwriting profit derived from underwritten securities to New York income, less an amount for certain expenses. The attribution of profit was based on the New York location of the underwriting syndicate manager, whose activities resulted in "primary" profits. Petitioner, G. H. Walker & Co., had allocated such "primary" profits based on the location of the office of the partnership which actually sold the underwritten security.

12. Petitioner's offices outside New York paid the New York office 35 percent of gross commissions for New York clearing services with respect to trades executed in New York which originated in such outside offices. This 35 percent charge was agreed on among the managing partners of the three regional offices as the result of negotiations concerning the profit-base of each office, for purposes of determining the partners' compensation. This percentage was maintained for the entire tax period in question.

13. Petitioner, G. H. Walker & Co., borrowed primarily from New York banks to provide working capital for the entire firm, and to finance the margin accounts of customers.

(a) The interest cost of the working capital loans was allocated to each regional office of the partnership in proportion to the securities inventory of each regional office, which inventory was used as the collateral for the loans. The interest was charged to each regional office on the basis of the weighted average monthly interest cost of carrying the loan.

(b) Margin accounts, whereby customers borrowed from petitioner for the purpose of financing a portion of the cost of securities in the customers' accounts, were financed in turn by petitioner borrowing from banks using the securities of the customer as collateral. Petitioner, G. H. Walker & Co., paid interest to the banks at the "broker call rate", which varied, and in turn charged the customer interest at a rate one-half percent above the broker call rate. Each regional office of petitioner was charged the broker call rate, in accordance with its proportion of money loaned in margin accounts, based on average monthly customer balances and interest rates. Each office also reflected the one-half percent above the broker call rate charged to margin customers on its own books.

14. Petitioner apportioned and allocated profit-sharing, pensions and other similar "employee-type" costs on the basis of a percentage of employees in each regional office with other factors (e.g. length of service) also being considered. This "unit basis" approach employed by petitioner resulted in a smaller deduction for such expenses than that of the Income Tax Bureau adjustment, which was based on a higher attribution of profits to the New York office. Reallocation of partnership services for 1962 through 1970 by the Income Tax Bureau also increased the deduction regarding New York operations.

15. For portions of the period from 1960 to 1970, each regional office maintained its own bookkeeping. Additional bookkeeping on transactions executed in New York for clients of the partnership was performed in New York. Furthermore, a switch to computerized operations in approximately the middle of this period, which operations were conducted in New York, increased the bookkeeping services performed in New York. In the Income Tax Bureau audit and the subsequent notices of deficiency, five percent of outside commissions was charged against the offices outside New York and treated as income allocable to New

York or as a reduction of expenses allocable to New York, thereby increasing income allocable to New York.

16. In 1970, petitioner charged its customers a commission surcharge, pursuant to stock exchange requirements, but did not allocate any portion of this increased commission to New York.

17. Petitioner filed two claims for refund for 1966 and 1967, based on net operating loss carrybacks from 1969 and 1970. Such claims were disallowed by the Income Tax Bureau on the grounds that the interests of the partners in G. H. Walker & Co. for 1969 and 1970 (the loss years), who also had an interest in the partnership during 1966 and 1967 (the carryback years), did not equal 80 percent of the interest in the partnership in such loss years.

18. The books and records of petitioner clearly disclose the income and expenses of its New York operation.

19. Petitioner made a motion for summary judgment based on alleged protracted and deliberate delay which, petitioner claimed, not only made it difficult for petitioner to prepare for trial, but also constituted a denial of due process and equal protection of the law under the constitutions of both the United States and the State of New York.

CONCLUSIONS OF LAW

A. That the allocation of primary underwriting profits based on the location of the managing underwriter and the location at which the underwriting activity is managed is erroneous (Matter of J. C. Bradford & Co. v. State Tax Commission, 62 A.D.2d 69, 403 N.Y.S.2d 813). The Audit Division is hereby directed to compute the primary underwriting profits using a retroactive application of 20 NYCRR 207.8(d)(1)(2)(3).

B. That the net business income of petitioner, G. H. Walker & Co., was

properly determinable from the books and records of petitioner. Tax Law §707(b), 20 NYCRR 207.3(c) (substantially the same as the aforementioned State Tax Commission Regulation 20 NYCRR 287.1). Direct accounting is the preferred method and the use of the three factor formula contained in §707(c) to allocate the income of petitioner is unwarranted (Piper, Jaffray and Hopwood v. State Tax Commission, 42 A.D.2d 381 and J. C. Bradford & Co. v. State Tax Commission, 62 A.D.2d 69).

C. That although the use of the percentage allocation of commissions to New York is expressly authorized by the State Tax Commission in its regulations (20 NYCRR 207.5(c)(1) and (2) and Regulation Article 471 Q82-a), the evidence submitted by petitioner showed that the percentage was significantly less for the years at issue. The Audit Division is hereby directed to obtain, from petitioner, an affidavit or statement as to the commission rates which were charged for said years.

D. That the profit-sharing allocation made by the Income Tax Bureau, which resulted in favorable tax consequences to petitioner, was proper.

E. That the interest income and deduction adjustments contained in the notices of deficiency, and the underlying computation thereof, lack sufficient basis. Accordingly, such adjustments must be deleted from the notices of deficiency. The books and records of petitioner are to be followed in this regard. Such books and records of petitioner indicate, however, that New York interest expense is deducted for the entire "New York group" which includes offices in Philadelphia, Pennsylvania and Bridgeport and Hartford, Connecticut. All such interest expenses from these out-of-state offices in the New York group must be allocated to sources outside New York State. The Audit Division is accordingly directed to recompute the allocation of interest expense consistent with the above.

F. That the five percent bookkeeping charge described in Finding of Fact "15", supra, is determined to be an unwarranted audit change to the extent that it reflects any bookkeeping performed by the New York office of petitioner concerning the sale or purchase of stocks or bonds, since any such activities are deemed to be included in the computation of the Commission's allocation contained in Conclusion of Law "C", supra. Furthermore, the bookkeeping adjustment determined as a percentage of commissions earned outside New York State constitutes an effort to apportion bookkeeping expenses attributable in part to the production of income to the sources of such income. This measure is arbitrary, and the Audit Division is directed to delete such adjustments from the notices of deficiency.

G. That the surcharge on commissions received by petitioner in 1970 constituted income allocable to New York and should be so allocated, consistent with the regulations of the State Tax Commission cited in Conclusion of Law "C", supra.

H. That the disallowance of the claims for refund issued by the Income Tax Bureau (Finding of Fact "17", supra), for 1966 and 1967, which claims were predicated on net operating loss carrybacks from 1969 and 1970, was improper. Evidence was adduced to establish that the interest of partners in G. H. Walker & Co. during 1969 and 1970 (the loss years), which partners also had an interest in G. H. Walker & Co. during 1966 and 1967 (the carryback years), amounted to at least 80 percent of the interest in the partnership during these loss years.

I. That the motion for summary judgment made by petitioner, G. H. Walker & Co., is denied since the State of New York cannot be estopped from collecting taxes lawfully imposed and remaining unpaid in the absence of statutory authority (Matter of McMahan v. State Tax Commission, 45 A.D.2d 624).

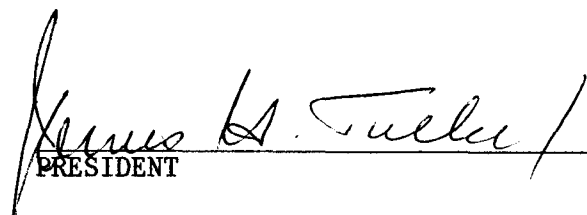

J. That the Application for Revision or Refund of Unincorporated Business Taxes of G. H. Walker & Co. for 1956 through 1959 is granted to the extent that the notices of additional assessment for said years are cancelled; that G. H. Walker & Co. is not entitled to a refund of taxes paid since its application was not filed within the two-year period prescribed in section 374 of Article 16 of the Tax Law.

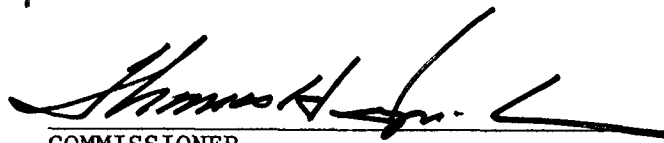

K. That the petitions of G. H. Walker & Co. for 1960 through 1970 are granted to the extent indicated in Conclusions of Law "A", "C", "E", "F" and "H"; and that, except as so granted, the petitions are in all other respects denied.

Gentlemen:

Please take notice of the Decision of the State Tax Commission enclosed herewith.

You have now exhausted your right of review at the administrative level. Pursuant to section(s) 690 & 722 of the Tax Law, any proceeding in court to review an adverse decision by the State Tax Commission can only be instituted under Article 78 of the Civil Practice Laws and Rules, and must be commenced in the Supreme Court of the State of New York, Albany County, within 4 months from the date of this notice.

Inquiries concerning the computation of tax due or refund allowed in accordance with this decision may be addressed to:

NYS Dept. Taxation and Finance
Deputy Commissioner and Counsel
Albany, New York 12227
Phone # (518) 457-6240

Very truly yours,

STATE TAX COMMISSION
